SKILL LEVEL: ALL

COST: \$180.00

This course has been a favorite for individuals that are new to kayaking and for individuals that have prior paddling experiences.

This course allows us to hone in on your paddling goals and with time between sessions to practice the skills you are refining.

You can choose the day of the week and the hours that will fit into your schedule, show up at the designated venue and we will meet you with the gear and kayaks (unless you want to bring your own).

If you never have had professional instruction we would like the first session to be 4-hours and then you can make additional sessions shorter (2-hour minimum). If you have previous paddling experience at want four 2-hour focused skill sessions we can arrange that.

Overall this has become one of our most popular courses because of the flexibility, customization and cost.

Call us and tell us your paddling goals – we are committed to helping anyone open to improving and becoming a safer more efficient paddler.
